

Database expert

Contract type and duration: Contract type is Service Agreement with duration 12 months of which three months of test period, renewable.

Starting date: as soon as possible.

Purpose: to support the *Pilot Project For Establishing A Subsidized Insurance System In Agriculture (ASSI)* - within the Programme for the Modernization of the Agricultural Sector (PROMAS) - in setting up and maintaining the *Agricultural Insurance Information System (AIIS)*.

The successful candidate should be a qualified database administrator, of Albanian nationality, with significant previous experience and the capacity to deal successfully with the implementation of web based information systems.

Duty station: based in Tirana in the premises of the Albanian Ministry of Agriculture, Rural Development and Water Administration, at the PMU Office.

Job description

The Database expert will:

- Ensure coordination on IT matters among all subjects involved in establishing and maintaining the AIIS: the contractors providing technical assistance for the implementation of specific parts of the AIIS, the IT services of the Ministry of Agriculture, Rural Development and Water Administration, the IT services of other involved Albanian institutions.
- Ensure continuity of the work processes aimed at setting up the AIIS main components, specifically the Agro-Meteorological Information System and the Database of Insurance Risks.
- Provide technical support to the implementation of the AIIS on a specific web platform, in cooperation with the involved institutions.
- Support the National Coordinator of the PMU (Project Management Unit) in supervising the progress of the work on IT matters.
- Support the preparation and updating of the PROMAS website in close cooperation with other members of the Programme team.
- Cooperate with the ASSI Project team in keeping updated the project monitoring system.
- Help maintaining the PROMAS IT system.

The Database expert will report directly to the PMU National Coordinator and to the Chief Technical Advisor.

Knowledge, experience and skills:

- University Degree in informatics, computer sciences or equivalent.
- At least five (5) years of professional experience in the design and implementation of databases, database networks, information systems.
- Specific experience in setting up web interfaces for web-based databases and/or in the management of web-based databases.
- Good level of written and verbal English language
- Good reporting and organizational skills, preferred with previous experiences.
- Ability to work autonomously, with tight deadlines.

Interested qualified candidates are requested to submit their CV in English by December 1st, 16h00 Tirana local time, at the following email addresses: info.promas@bujqesia.gov.al AND utl.albania@esteri.it.

Please insert "ASSI-DB expert" in the subject line of the email.

Only shortlisted candidates will be contacted for an interview.
